February 1, 2022

Good Afternoon,

NCIC released TOU 21-4 on July 30, 2021 for the following changes:

- Modification to the NCIC $.M. Nonunique Missing Person Notification provided in response to a potential match to a Nonunique Missing Person Inquiry (QM)

- Introduction of Extreme Risk Protection Order (ERPO) file for NCIC
    - Configuration of MKEs
    - Configuration of Messenger Forms
    - Add Help Files
    - Modify edit routines for MFC present in the ERPO transaction

What does this mean for CPI customers?

If your organization would like to implement the new ERPO file, CPI can create the forms, keys and help files to support it. This can be done for **10 billable maintenance hours**.

Please contact Robert Ponzevic (Phone: 331-757-5385/ Email: rponzevic@openfox.com) or Nate Strong (Phone: 331-757-5635/ Email: nstrong@openfox.com) to schedule the ERPO implementation.

If your organization would like the ERPO file included in the state Hotfiles, please contact your project manager to start the SOW process.

No CPI system changes are required for the modification to the NCIC $.M. Nonunique Missing Person Notification.

February 1, 2022

Good Afternoon,

NCIC released TOU 21-5 on October 22, 2021 for the following changes:

- Modification to the Originating Agency Identifier (ORI) File.
- Expanding REG and CGD max field lengths from 8 characters to 10 characters.
  - Helpfile changes.

What does this mean for CPI customers?

If your organization would like to implement the REG/CGD field length changes, CPI can update the forms, keys and help files to support it. This can be done for **2 billable hours**. If your organization includes Boat Data in the state **Hotfiles**, it may require an **additional 6 hours (at maximum)**.

Total estimate: 2 - 8 hours, depending on system software.

Please contact Robert Ponzevic (Email: rponzevic@openfox.com) or Nate Strong (Email: nstrong@openfox.com) to schedule the implementation.

No CPI system changes are required for the Modification to the Originating Agency Identifier (ORI) File.
